

**AUSTRALIAN[®]
MANGOES**

A circular inset showing a mobile app interface for the Australian Mango Export Registration System. The interface includes the 'AUSTRALIAN MANGOES' logo at the top, followed by the title 'Australian Mango Export Registration System'. Below the title are two input fields: 'Username (email)' with the placeholder 'Enter username (email)...' and 'Password' with the placeholder 'Enter password...'. There are two buttons: a green one labeled 'Sign In' and a blue one labeled 'Register for MRL Access'. At the bottom, there is a link that says 'Forgot Password?'.

Acknowledgement

This platform was developed to provide a centralised Maximum Residue Limit (MRL) tool for growers across multiple horticultural industries, including mangoes, avocados, cherries, berries, melons, apples, pears, and stone fruit. The web and mobile application delivers real-time, country-specific MRL and withholding period data to support export compliance and streamline decision-making.

The project is funded by Hort Innovation using levies from participating industries and contributions from the Australian Government.

AUSTRALIAN MANGO EXPORT REGISTRATION SYSTEM

The Mango MRL search platform is now housed within the web-based Mango Export Registration System, which is also used to register for protocol markets (China, USA and Korea).
